**DETAILED ACTION**

1. Claims 1-44 are presented for examination.

***Election/Restrictions***

2. Restriction to one of the following is required under 35 U.S.C. 121:
  - I. Claims 1-7, 19-26, and 38-40 are drawn to a method, a computer readable medium and a system for broadcasting an announcement signal, classified in class 455, subclass 3.02.
  - II. Claims 8-18, 27-37, and 41-44 are drawn to methods, a computer readable medium, and a system for accessing a computer network by detecting a broadcast signal, classified in class 709, subclass 225.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as broadcasting an announcement signal, lacking the particulars of Invention II. Invention II allows for accessing a computer network by detecting a broadcast signal, lacking the particulars of Invention I. See MPEP § 806.05(d).

Art Unit: 2154

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to James Banowsky on November 24, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.
